

SOUTH BAY Tsunami Hazard Map

This map shows the tsunami hazard zones in and around South Bay near Eureka. Areas shaded yellow are at risk of flooding during a tsunami, including King Salmon, Hookton Slough, the Humboldt Bay National Wildlife Refuge area, and low-lying land along Tompkins Hill Rd. and Hookton Rd. Areas shaded green are outside the tsunami hazard zone and considered safe, including the upland areas of Humboldt Hill, Tompkins Hill Rd., and Table Bluff. Schools in the safe area include South Bay Elementary, Pine Hill Elementary and College of the Redwoods. If you are in a yellow hazard zone during a tsunami warning, move inland and uphill on foot toward the green safe areas.
