

## CQI Monitoring: Dietary

Date: 1/14/2026

FY/Q: 2 (2025/2026)

RD Name: Ashlyn Taylor, RD

### Performance Indicators

1. Accuracy of Dietary Rand Card: 83%
2. RDN was notified of Nutrition Screens of "5" or more within 24 hours: 70%

RDN and nursing has been successful in improving communications.

3. RDN Response within 24 hours: 71%
4. Percentage of high-risk patients with a dietary questionnaire completed: 100%
5. Monthly dietary and food quality control inspections completed by RD: 100%
6. Dietary staff correctly fills out quaternary ammonium logs: 100%
7. Correct label and dating and dented can removal: 70%

October and November there was one item per inspection that was not dated – noted on inspections. All dented cans were always removed appropriately/not present in kitchen during inspections.
